Maple Syrup Producers Meeting At Maple Ontario September 28

The First Annual Meeting of the Ontario Maple Syrup Producers Association and the Maple Queen Contest will be held at Honey Pot Ski Lodge, Maple Ontario (Highway No. 7, near Toronto), on Thursday, September 28, 1967. Registration will be at 9 a.m. There will be a banquet at 5:30 p.m. when the speaker will be Dr. C.O. Willits, of Philadelphia, Penn., outstanding world authority of the maple products and author of the Maple Syrup Producers Manual. Dr. Willits will be available to answer questions during the entire day. Questions may be submitted previously, dropped in the question box, or made directly to Dr. Willits from the floor.

The programme on September 28 will consist of reports from local organizations, a progress report and financial statement of the provincial organization from Walter A. Humphreys, Secretary-Treasurer, Barrie, and a full discussion on costs of production.

Other topics will include various phases of production and marketing — pipe lines, pills, pumps, purchase of sap, use of evaporator covers, sugar camps, entertainment of visitors, festivals, and market outlets. Lunch will be served at noon and everyone will be welcome. The Chairman will be Wallace Crofts, Haliburton, assisted by Chas. Corbett, Lucan. Resolutions should be submitted to officials of the organi-

zation or presented in person.

On September 29, there will be a tour and demonstration of labour-saving equipment in the maple bush of Amos Baker, Maple Ontario (Highway No. 7, at Bathurst Street).

The Ontario Maple Industry has a terrific potential for expansion as an annual source of farm income. Presently, there are more than seventy million trees in Ontario. Unfortunately, less than one million maple trees are tapped annually. The organization has set an objective to produce one million gallons of maple syrup in 1968.

B.C. FAMILY VISITS HERE

Don Loucks, wife and daughter, of Campbell River BC were in town visiting his parents Mr. and Mrs. Chester Loucks. Campbell River is on the east coast of Vancouver Island where the main sport is Salmon fishing. Don dropped into the Progress to show us some of the beautiful salmon caught off the coast. The largest caught was a beautiful 75 pounder. This particular salmon is called Tyee Salmon and is caught on 30 lb. test line with such plugs as Lucky Louie and Butch.

HALIBURTON C OF C THANKS LINDSAY FOR CARAVAN VISIT

"We in Haliburton County are deeply indebted to the town of Lindsay who gave up one of their days in order that the Centennial Confederation Caravan might visit Haliburton County" wrote John P. Hill, president of Haliburton Highlands Chamber of Commerce in a letter to Lindsay Council.

Lindsay had originally been scheduled to host the Caravan for four days. Council, on learning that the Caravan did not plan to visit Haliburton County, took steps to make a visit to Minden possible, and as a result of the visit an estimated 6,000 people went through the caravan at Minden.

"I wish to convey to council our grateful thanks for giving up one of your days" Mr. Hill stated in the letter.

SCHOOL REGISTRATION GETS UNDERWAY

HALIBURTON FINE ARTS

The Haliburton School of Fine Arts reports registration is now taking place for their Autumn Courses in Landscape Painting and Photography.

Along with the help of experienced painters, special attention will be given to those who have never used a brush before. Lack of experience should be no hindrance to anyone wishing to take the course.

The instructor for photography points out that expensive equipment is not necessary. Emphasis will be on Photo composition and

the pupil will be shown how to use different light conditions to best advantage.

This School has also planned an excellent evening programme to complement the daytime classes. Lectures and films, to which the public are invited, will be shown each evening from 7:30 to 9:30 in the Recreation Hall at Royal View Lodge. Students of the School will be granted free admission to these evening sessions. A small fee will be charged to others who attend.

NOTICE

By virtue of the authority vested in me, I hereby proclaim Monday, September 18th, as Civic Holiday throughout the Municipality of Anson, Hindon and Minden.

Chas. S. Brandon, Reeve

POT SHOTS

by FENWICK FINCH

The "BIG" convention is over and two of our local gentlemen emerge as TV personalities. J. Earl Palmer, QC, (voting delegate) for his main appearance with "Mike" Starr.

It was left to the Owner and Editor of the "Progress" to come up with the star rating. During the last speech of the "CHIEF" when the podium was cleared of the "common rabble" the spotlight centered on John Diefenbaker and he exhorted the faithful to follow the new leader — as the spotlight centered on the "chief" lo and behold ye editor standing in the "Sanctum Sanctorum in lonely grandeur. (without his Haliburton Highlands plaid tie) for shame!

If you don't think that takes some doing you should be around one of these conventions and with the tight security they have you would have trouble whipping a mouse near where the "chief" stands. I don't know how Al did this but he should be able to succeed at anything after this.

* * * *

Whenever I run across something good I like to let my readers in on it. To all lovers of fresh made donuts — I have the place. The "Sundial" restaurant in Fenelon Falls. Formerly Jerry's Inn it is being operated by the new owner J.W. Bennett. Slip in for a cup of coffee and while you're waiting "J.W." will run off any amount of fresh donuts. Let me tell you, you can't hardly get them no fresher than that.

* * * *

The Festival of Colour is coming up — September 16th to October the 9th. and there is one feature that everyone should be sure and see. Located on the Ingoldsby road opposite Mistikoski Lodge this first modern, central evaporating and maple processing plant is a must to see.

"The Iron Kettle Maple Products Sugar House" has pure maple sugar, maple butter, available in gift packages and regulation containers of various sizes. This is a young and budding industry and the residents of the Highlands should be proud of it. For years "Vermont" maple products have been touted throughout Canada but our product here is every bit as good in taste and texture — no need to buy an American product — our "Canadian" is the best.

All kinds of activity around the "Red Umbrella" recently. I was asking Don MacNab about the excitement — cars, police, cameras, helicopters, the whole shmeer. Here's the story. The John Lowery productions flew into the County and did a coloured Commercial for the 1968 "Pontiac" You'll be able to see it on or about September the 24th. The main part was taken around Minden Look-out, (Pike's Peak) "and according to the director the views are "out of this world".

Bob Gillies of the "Pegasus Airlift" was present personally and did the helicopter stunt. His next job is flying an air show "inside" the Astro Dome at Houston, Texas. So be watching for it.

* * * *

Next week we'll give you a run-down on a recent visit to the "Dunsford Golf and Country Club" This up-and-coming Club is co-owned and operated by a former Minden resident, Wayne Swann. It's well worth the trip over to see the club.

See you next week.

Fenwick

HALIBURTON COUNTY PUBLIC

LIBRARY PLANS A BUSY SCHEDULE

Mr. Noel McNeill, County Librarian, announced the Library's fall schedule of activities today. Each of the Municipal Branches will be continuing with their present hours open at least, until January 1st.

During the weeks of September 11th and September 18th every library will receive a fresh shipment of 500 books from the County office.

On September 20th the Librarians will be meeting at the Dysart Branch Library at 2 p.m. for a regular County workshop.

The Library Board will have its first fall meeting on September 28th and will hear a complete report on activities since January 1st. The Board will also discuss the library budget and improvement of library service.

On September 29th and 30th the High School will be the scene for a centennial book fair. Six publishers will have displays set up for public viewing. On Friday afternoon branch librarians will gather for a presentation by Merick Jarrett of MacMillans on "The Book — from Manuscript to bookshelf." In the evening a film from Britannica House on "The Library — a place of discovery" will be shown. Mr. Jarrett will present a symposium of folk songs and the book displays will be open. The Book Fair is designed to help the public schools in our county in their selection of library books. The general public is invited to attend the Friday evening programme. On Saturday the book displays will be open from 10am to 2 p.m.

The Library is participating in the Haliburton School of Fine Arts by providing a display on the many facets of art in our modern day. These books will be available to the enrolled students at the School of Fine Arts.

On October 10th special centennial book displays, featuring books on, Canada, and, by or about Canadians will be set up in our Monmouth, Dysart and Minden branches along with the descriptive material.

Mr. Barrie Robinson our new Regional Librarian visited our libraries this summer and expressed pleasure and surprise at the condition and extent of our book collections.

HEALTH TIPS

There are plastic covers to protect toasters, washing machines, cars, typewriters, adding machines and some dozens of other pieces of equipment and using these protectors is a good idea.

HISTORIC CONVENTION

The Progressive Conservative Party looks all new after one of the most exciting conventions in the History of Canada. It was also the largest attended event ever staged in the city of Toronto. Some fourteen thousand people went through the turn styles at Maple Leaf Gardens each day to get a peek of the candidates and the many celebrities who took part.

New policies and the new leader, Robert Stanfield of Nova Scotia tie together one of the brightest combinations the Conservatives have had in some time. The much talked about Diefenbaker stand, as a candidate, who many thought, including ourselves would split the party, did just the very opposite. Through this the party joined together and ousted the chief, and in doing so strengthened the rank and file within the party.

A week ago we predicted Diefenbaker would run, and George Hees would win — we were right on the first count, but fell well off the pace on the second. We were looking for a personality such as Hees to win votes, instead, Stanfield, who is of very opposite character, won by a very popular margin on the final ballot.

This new leader of the Conservative party, who we watched very carefully over four days, has a personality which sneaks up on you. He is a very low key, thoughtful conservative, and gives you the impression of the very staunch conservative of yesteryear. He is a man full of surprises, straight forward answers, warmth and honesty, and before you hardly get to know him, he captures you as a personal friend.

Without any doubt, it was the old master politician, John Diefenbaker, who made this convention one of the most interesting and suspenseful spectacles of our time. Even though there were eleven respected candidates, the old Chief was the one who through the punches, and kept everyone on the edge of their seat, until the final moment, when he announced he would go out fighting. As the great politician he is, he did just that, and on Saturday evening at approximately 11 p.m. he gave his swan song speech which was followed with cheers and trumpets and shouts of "stay with us Dief". This was the end of an era of one of Canada's great political leaders.

Besides the convention at Maple Leaf Gardens, the high jinx in and around the hotels, played a big part in this historic event. There were bands of all kinds, dancing, parties, girls and booz — hospitality rooms, luncheons, fashion shows and teas for the ladies. All this made up the "yahoo", showbiz atmosphere in Toronto. This splash in Hog Town will take some doing to get over — if it ever does.

To sum up this week, we see a new leader, unity in the party, possible unity for Canada — tired conservatives who had a swinging time. We are glad its over.

LETTER TO THE EDITOR

Sept. 8, 1967.

Dear Sir:

In the August 31st issue of the Progress you wrote a story stating that the Haliburton Highlands Property Owners Council denounced winter ice fishing in this area. That was surely news to everyone present at the meeting. In order for the Council to denounce ice fishing there would have to be a resolution to that effect and then a vote.

Where is that vote? How many voted for the condemnation and how many against? There was no vote. You are reporting something as a fact which has yet to happen. The entire meeting was put on tape, and you can check the tape.

If such a vote had been taken, I along with a number of others present would have voted in favor of continued ice fishing. Whether or not the hordes of ice fishermen spend money or not, the question is academic to summer residents. However, there are hundreds of local residents too busy earning a living in the summer months to fish. They are certainly entitled to their fun in the winter months.

One gentleman from Farquar lake was certainly most vociferous in his condemnation of winter ice fishermen. The remarks you quote are his for the most part. He has the right to his opinions and he has listened to with patience for some time, and finally with growing impatience, as it was impossible to get him to stop and get on with the meeting. He was finally appointed chairman of a committee to report on ice fishing, and the meeting proceeded to other business.

When his report is presented to the council and if a resolution to condemn ice fishing is introduced I think you will find it defeated. There are thousands of fair minded cottage owners who realize the lakes belong to everyone, not just a vociferous summer trout fisherman.

By misinterpreting the facts you have caused great mischief. If you will take the trouble to print the entire discussion on ice fishing I believe you will find it pretty much of a one man show. You will certainly prove to yourself that the Council did nothing to condemn ice fishing.

Sincerely,

Philip H. Sturge.

CHEQUES STOLE

Police have warned merchants and banks to be careful in cashing welfare cheques following the weekend theft of 200 cheques from a welfare department office.

The cheques ranging in value from \$6.00 to \$155 were made out to the recipients and were negotiable.

TOBACCO VIRUS IN SMOKERS

Tobacco mosaic virus, which causes a leaf disease in tobacco plants, has been recovered from the sputum and chest fluids of cigarette smokers who have lung cancer and other pulmonary diseases. An inoculum of the material obtained from the human patients causes tobacco mosaic virus disease in tobacco plants. But just what the role may be of the tobacco virus in human disease, if any, is still obscure, reports Dr. Ronald A. LeClair and associates of the University of California, in Today's Health News.

PITTSBURGH PAINTS

CARNIVAL RADIO SCRIPT

Are you one of those people who had all the best intentions of doing some painting around the house last Spring and never got around to it? Well don't let it worry you too much, because you can still do it now, and do it more economically than you would think possible. The reason is Carnival Paints. Carnival Paints, available right now at F.E.A. GRIFFITHS CORP. are a complete line of quality interior and exterior paints that are easy to apply, and easy on the pocket book. Carnival Paints are available in a wide range of colors too. Drop by at F.E.A. GRIFFITHS CORP. and see for yourself how inexpensive painting can be, without sacrificing quality, when you use Carnival Paints. After all, you don't want to go through the whole winter with a guilty conscience because you never did get around to doing the painting you promised. Let Carnival Paints give you a clear conscience, and a cheery house. Available at F.E.A. GRIFFITHS CORP.

SPORTS

WITH BOB BEENEY

The Minden Centennial Softball team won the championship of the Haliburton County Minor Softball League under the guidance of coach Les Northey. There were five teams entered in the league and these were Minden Centennials, Minden Voyageurs, Haliburton Highlanders, Haliburton Eagles, and Snowden.

Mark Vasey who is a member of the Minden Recreation Committee is the organizer and chairman of the group. This league is a carry over from the old church league that operated for a number of years.

In the semi-finals the Haliburton Highlanders defeated the Minden Voyageurs who were under the guidance of Doug McGee while the Minden Centennials defeated Snowden. The Centennials and the Highlanders then squared off in the finals.

The Minden Centennials became champions after defeating Haliburton in the three out of five series.

The winners will all receive crests and the team will be honoured by receiving the Church League Trophy.

The captain of the team is Wayne Johnson. Other members of the team are: Doug Vasey, Wayne Barkwell, Wayne Moxam, Bill Jackson, Chris Pritchard, Roger Yearwood, Miles Trumbull, Tim Hughs, Brian Austin, Leigh Bull and Ken Casey.

During the season all the teams played a home and home series with the Minden teams playing their games at the Minden Fair Grounds. Both Minden teams received good support from their enthusiastic followers.

Les Johnson of Minden assisted in the operation of the Centennials and along with Les Northey came up with real winners.

Gerald Hicks coached Snowden and did a lot of hard work to organize the team.

The league will be in operation next year however quite a few of the players will graduate to a higher class of ball.

1967-68 WINTER WORKS INCENTIVE PROGRAM

Following discussions with the Government of Canada, the Province of Ontario is pleased to announce that a joint Federal, Provincial, Municipal Winter Works Incentive Program has been authorized for the 1967-68 winter season.

This will be the tenth consecutive year that this cooperative Program has been in operation in Ontario. During this period, the Program has made a contribution in combating the problem of high winter employment.

The terms and conditions of the 1967-68 Program will be essentially the same as those of last year's Program, with the following exceptions:

(a) the period of the Program will be limited to five months, and

(b) municipal capital undertakings only, will be accepted for instance, a maintenance activity such as road brushing, will not be accepted under the Program.

The rates of reimbursement paid to the municipalities will remain the same as last year. To municipalities not in Designated Areas and Areas of High Winter Unemployment Canada will pay 50% of the eligible direct labour costs, while Ontario will pay 25% of such costs.

Do you qualify for OMSIIP Premium Assistance?

MINDEN DETACHMENT

REPORT

by Constable E. F. Whitney

rash of traffic accidents in the Minden area over the holiday weekend caused considerable property damage but few injuries resulted.

Damage of \$350 resulted at 11:57 a.m. Saturday when a car driven by Ronald Dean, 21, of Port Credit, went off the Boshkung Lake Road to avoid collision with an oncoming dump-truck driven by Franklin Barjarow, 31, of Haliburton, police said.

Minden OPP Constable E.F. Whitney investigated.

Total damage of \$475 resulted, police said, when cars driven by Pauline Pribag, 31, of Scarborough and Andre Jean Miniz, 21, of RR 1, Minden, crashed on Highway 503, near Gooderham about 3:45 p.m. on Saturday.

A two-car collision on the Boshkung Lake Road about 9:05 p.m.

by Constable E. F. Whitney

Minor damage resulted when a motorcycle and farm tractor collided about 6 p.m. Saturday on the Bobcaygeon Road, in the Minden area, but the two occupants of the motorcycle sustained minor injuries, police said.

Gary Adams, 21, of Toronto, driver of the motorcycle and his wife both sustained minor injuries. Police said the tractor was driven by Garnet Walter Stevenson, 56, of Minden.

Minden OPP Constable D.J. Watson investigated.

Total damage of \$400 resulted about 7:45 p.m. Saturday when cars driven by Malcolm Taylor, 31, of Thornhill and Gary Basey, 33, of Bradford collided on the Kennesis Lake Road, police said.

Minden OPP Constable John Parsorage investigated.

About 3650 damage resulted on Highway 503 about 12:30 a.m. Sunday when a car owned by David Birght, 20, of Scarborough, was in collision with a car owned by Stephen Suscitti, 19, of Scarborough, said police.

Minden OPP Constable R. Hicks investigated.

Nearly \$200 resulted from a two-car crash on the Scotch Line Road north of Minden, about 5:50 p.m. involving cars driven by Lillian R. Stevenson, 50, of Toronto and Robert George Reesor, 28, of Downsview, police said.

Constable D.L. Hiltz investigated.

A one-car accident on Highway 35 near Minden about 1:35 a.m. Monday resulted in \$300 damage. Police said the car was driven by Philip A. Saar, 17, of Hanover, Ontario.

Constable E.F. Whitney investigated.

ONTARIO WATERS PRODUCING BIG FISH

Entries being received in the Big Fish Contest conducted by the Ontario Federation of Anglers and Hunters prove that Ontario waters have their share of the Big Ones. The largest Maskinonge entered is 43 pounds caught in Eagle Lake, Machin Township by Wm. G. Danielson of Eagle River, Ontario. This lunger was hooked on a Black Suick with white belly and red markings. The fish measured 52 inches in length with a girth of 25 inches. The contest record for maskinonge is 53 pounds set in 1963. Last year's winner was 46 pounds, 14 ounces. A 39 pound Maskinonge has been entered by Mrs. M.E. Eck of Pandora, Ohio, which she caught in Lake Nipissing.

A 16 pound 4 ounce Walleye (Pickarel) will probably take some of the Molson's prize money. Joseph Risher of South Charleston, West Virginia, caught his 33 inch Walleye with a live minnow on 8 pound test line in Stanley Lake near Golden Valley, Prince Township.

There have been some good Speckled Trout catches. Walter F. Wilson of Flesherton with his 7 pound entry caught in Sandplain Lake, Beluach Township and T. Souther of St. Catharines with a 6 pound 12 ounce Speckled caught in Trodd Lake, Arnot Township are running second and third to the leading 8 pound 7 1/2 ounce Speckled Trout. Mr. V.L. Snow of London, Ontario should have a prize winner with his 6 pound 8 ounce trout caught in the Keesick River, a tributary of the Albany River.

The best Largemouth Bass to date is 6 pounds 8 ounces caught by Lillian Holsinger of Copopolis, Pennsylvania, in Bell Lake Gushen Township. In the Smallmouth class the leading entry is 5 pound 6 ounces caught in Round Lake, Belmont Township by V.L. Billings of Cuyahoga Falls, Ohio.

John Jackson of Fort Williams has entered a 34 pound 8 ounce Lake Trout which he caught in Mamagweiss Lake near Ignace. Lake Manitou, on the Manitoulin Island, which produced the best Lake Trout last year, has yielded a 26 pound Trout to John E. Wendling of Fort Wayne, Indiana. The best entry this year is 39 pounds 2 ounces.

Your medical coverage could cost you less than you think!

If you have no medical services insurance and because of your income you felt that you were unable to afford the premiums, you can still afford to join the Ontario Medical Services Insurance Plan—because OMSIP gives premium assistance to persons who have lived in Ontario for 12 consecutive months or more, based on the amount of their taxable income.

What is Premium Assistance?

By Premium Assistance, OMSIP means either a greatly reduced cost of coverage, which you pay in low installments once every three months, or where applicable, complete payment of your premium by the Ontario Government.

How to tell if you are eligible for Premium Assistance:

Premium assistance is based on the amount of your taxable income for the year ending December 31 last. Check your completed Income Tax return for the past year under "Taxable Income" (that's the reduced amount of money on which you pay tax after taking off any exemptions for your wife, dependants, charitable donations, etc.).

You may be eligible on the following basis:

- (a) Single: You are eligible if your taxable income was \$500 or less. Your OMSIP premium will be \$7.50 every three months.
- (b) Couple: You are eligible if your combined taxable income was \$1,000 or less. Your OMSIP Premium will be \$15.00 every three months.
- (c) Family: You are eligible if your family's total taxable income was \$1,300 or less. Your OMSIP premium will be \$15.00 every three months.

If you had no taxable income at all last year, your OMSIP coverage may be paid in full by the Ontario Government.

When to apply for Premium Assistance:

You may apply for Premium Assistance when you join OMSIP, or during the annual renewal period. Premium Assistance is not automatically renewed. Even if you had no taxable income, you must still reapply annually when you receive your personalized application and renewal form which is mailed to every contract holder prior to the July renewal date.

So if you have no medical services insurance and because of your income you felt that you were unable to afford the premiums, then obtain an application from any bank, or from OMSIP, 135 St. Clair Avenue, West, Toronto 7. A free brochure "Premium Assistance" is available from OMSIP.

OMSIP HELPS PAY YOUR DOCTOR'S BILLS...
OMSIP PAYS 90% OF O.M.A. SCHEDULES FEES.

damage. Police said the car was driven by Philip A. Saar, 17, of Hanover, Ontario.

Constable E.F. Whitney investigated.

The contest, now past the halfway mark, runs from April 29th to November 19th. The Molson Cash Awards, ranging from one hundred to ten dollars and totalling \$3200.00, will be decided at a meeting of the Committee of Judges on November 27th.

Entry forms can be obtained by writing to the O.F.A.H., Box 309, Willowdale, Ontario.

NOTICE

TOWNSHIP OF ANSON, HINDON & MINDEN

At the request of the Council of the Township of Anson, Hindon & Minden, the Ontario Water Resources Commission has investigated the possibility of installing within the said Township a water works project and now proposes to construct such works at an estimated cost of \$14,000. The Township proposes to borrow this sum from the Ontario Water Resources Commission and to make repayment over a period of thirty years.

The proposed project would consist of the following works:

The construction of an auxiliary well pumping chamber to serve the community of Minden to be located adjacent to the existing well pumphouse on the east side of Bobcaygeon Road, approximately 440 feet north of North Water Street.

The estimated annual cost of the project is \$1,752 which includes debt retirement, interest, reserve for contingencies and operating costs.

It is proposed to raise this sum by increasing the unit flat rate from \$12.00 to \$14.50. The present domestic flat rate for a typical home is \$36.00 which is equivalent to 3 units at \$12.00. This will be increased by 7.50 (3 units at \$2.50) to \$43.50

Annual Charges For A Typical Home

	Present	Proposed
80' frontage at 23½ cents	\$17.20	\$17.20
Connection charge	5.25	5.25
Consumer flat rate (3 units)	36.00	43.50
	<u>\$58.45</u>	<u>\$65.95</u>

Any ratepayer may, within twenty-one days after the first publication of this notice, send by prepaid post to the Clerk of the Township of Anson, Hindon & Minden, at the address given below, a notice in writing stating his objection to such approval or to the imposition of the special rate.

The Ontario Municipal Board may approve the said special rate pursuant to the statute and may approve of the said works, but before doing so it may appoint a time and place for a public hearing when any objections will be considered, but notice of such hearing will be given only to those persons who have given notice of objection as provided for above.

All plans, reports and estimates may be inspected at the office of the undersigned during business hours.

DATED AT MINDEN and second published this 14th day of Sept. 1967.

G. B. Bibby

Clerk-Treasurer,

Township of Anson, Hindon & Minden,
MINDEN, Ontario.

EFFECTIVE WEED CONTROL POSSIBLE WITH CHEMICALS

Complete control of annual weeds in many crops, such as corn and soybeans, is a reality, states Dr. W.S. Young, crop scientist Ontario Agricultural College, Guelph. Herbicides should be used according to the recommended procedures in Publication 75, Guide to Chemical Weed Control, Ontario Department of Agriculture and Food. Atrazine has consistently provided unsurpassed weed control in corn plots at the University of Guelph this year. Trellan and linuron in combination have given similar outstanding results in soybeans. 2, 4-DB and Dalapon likewise control many of the weeds which normally plague alfalfa and trefoil.

Farmers should check their fields every fall to assess the effectiveness of their current weed control programs. Weeds showing in fields in the autumn will indicate what measures must be taken next year. Indeed, some fall treatment can be used to make control more complete under some circumstances.

Recommended rates of atrazine (two pounds of actual atrazine with one and one half gallons of a special oil in 15 to 20 gallons of water) will completely control all annual weeds in corn. The spray is applied when weeds are in the one - to three - leaf stage.

Perennial weeds pose a different problem. It may be that several applications of atrazine at heavier rates would be necessary for eradication. Well-timed cultivation in the fall can help control many perennial weeds.

Quick grass in corn fields can be controlled by fall application of atrazine coupled with fall plowing and another application of atrazine in the spring. Two pounds of active atrazine is sprayed on emerging quack grass in the fall, three or four weeks before plowing. This is followed in the spring with a similar application of two pounds (active) of atrazine, either as a preemergent or a postemergent treatment. This is the most effective approach to quack grass eradication.

YOUTHS REMANDED

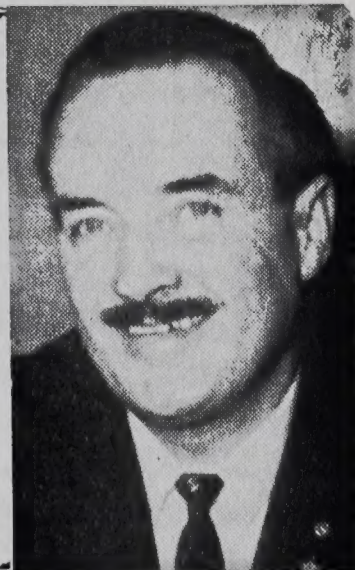

Two 17-year-old Toronto area youths were remanded one week in Lindsay magistrate's court today on charges of breaking, entering and theft, and theft from cabins in the Haliburton area.

Charged are Kenneth Clark of Scarboro and Paul Gilbreath of Etobicoke.

The pair were remanded without plea on the charges, laid in connection with offences on August 26 and 28.

What's It All About?

by REV. JIM

A LOOK AT THE CONSERVATIVE CONVENTION

While standing in the Royal York lobby the statement was made to me "the church has failed." No doubt this person was thinking of the "party spirit" and "the greed for power" both for the individual and for the Conservative party. But what he neglected to see is the element of "a better life for all people." This element has its roots in the church in general, and in her Lord in particular. He and his church is in reality the governing body in our land.

THE GRASS ROOTS

The distinctive teaching of our Lord is a better life for all people. He rejected the favoured few idea. The continuing influence of Jesus is through his church which for the most part is the common man. This influence has been so great that it topples self seeking governments and brings to power only those who are concerned about all. I believe this was clearly demonstrated at the Conservative Convention. The people enjoyed the hospitality of many of the more colourful figures, and would be great powers; but when it came time to vote they chose a man not too colourful, slow of speech, and perhaps even of thought, but one who is apparently serious enough to consider their welfare, and the welfare of all. Whether or not he shall serve the people of this country as their leader it remains to be seen; it may be that some other man with some other party will be the people's choice. But, be that as it may, he will be a man who serves the people in spite of the opposing forces. And this is the distinctive influence of the church and her Lord. The church has not failed.

SOMETHING DEEPER

The more I think about the life of Jesus the more I realize that "life" is something far deeper than the mere abstinence. We can abstain from many things and still not live. I am inclined to believe that he taught that there is nothing unclean of itself. All things are indeed pure. It is the right use of these things that is our problem. It would seem to me that the "party spirit" at the convention could serve as a diversion that would be quite healthy for some. But if this was a continuing spirit it could be self destructive. On this basis it would be very difficult for me to view a group of people at such a convention and say the church has failed. I am more inclined to believe that this same element of "a better life for all" is at work in the individual as well as society. His power is not only in our midst arresting those forces that destroy society, but also arresting the forces that destroy in the individual soul.

* * * *

If we look beyond mere appearances we would certainly not be able to say that "the church has failed." It is my intention to start a series of sermons comparing the Christian religion with other religions. You will not want to miss this. See you in church.

It's not just your imagination playing tricks on you when the weather in the city seems much more uncomfortable than the weather in the country, according to the Federation of Ontario Naturalists. Now there is scientific evidence to prove what sweltering city dwellers have known "by feel" all the time: the city is hotter than the country.

I always thought that the city was hotter because the tall buildings keep the wind from cooling things off. Apparently that is one factor, but there are many others of equal or greater importance.

In the August issue of Scientific American, William P. Lowry of Oregon State University gives several other good reasons why the climate of a city is basically different from the climate of fields and woods:

First, the rockline material in city buildings and streets absorbs and stores more heat energy than

soil does.

Second, the walls, roofs, and streets of a city act like a maze of reflectors, bouncing the heat back and forth to be absorbed by the various shapes of the city.

Third, a city generates a great deal of its own heat, not only from cars, trucks, and factories, but also from heating buildings in the winter and air conditioning buildings in the summer. (Air conditioners pump out hot air.)

Fourth, city rain water does not remain to cool the land, but is quickly drained off into storm sewers — much of the snow is cleared away before it melts.

And fifth, the air in cities carries a heavy load of solid, liquid and gaseous contaminants which retard the outflow of heat in addition to having other unpleasant effects.

The net result is a "heat island" — a self-perpetuating local subclimate which leads to such weather forecasts as the familiar "Low tonight, 75 in the city and

65 to 70 in the suburbs." Another familiar effect is what scientists call the "dust dome" or "haze hood", which is what the name implies, a dome of smog hanging low over the city, becoming worse as more pollutants fill the air, until eventually a strong wind or heavy rain clears it away.

Other interesting effects of the city's self-created climate are 10 per cent more rain (mostly in extra drizzle), 10 per cent more cloudiness, 25 per cent lower average wind speed, 30 per cent more cloudiness, 25 per cent lower average wind speed, 30 per cent more summer fog and 100 per cent more winter fog. Ugh!

MILLION DOLLAR CENTENNIAL DISPLAY CANADIAN NATIONAL EXHIBITION

Spectacular, timely and colourful, was the Million Dollar Centennial Display, by G.H. Wood, the "Sanitation for the Nation" Company, at the 1967 Canadian National Exhibition.

To see a million dollars in hard currency — all in one place — proved a great attraction, to the big crowds at the exhibition.

There was a complete range of all denominations — from \$1,000. down to Dollar Bills, and thousands of glistening Silver Dollars, in a mirrored carousel — which slowly rotated, giving everyone a full view of this money.

President, Geoffrey H. Wood told us — the intent is to raise the fact that it costs Canadians more than a million dollars a day for preventable sickness absenteeism — a great deal of this waste could and should be saved.

In case anyone had ideas, armed Pinkerton Guards kept a day and night watch on the display, which was enclosed and well protected behind shatterproof plate glass.

Added colour and interest was provided by guards from the Royal Regiment of Canada, with the kind permission of the Commanding Officer, Lieutenant Colonel R.G. Douglas, C.D., C.I.J.

These guards were posted at two Sentry Boxes. A colourful Changing of the Guard Ceremony took place every day, at 4.00 p.m.

The guards, in their brilliant scarlet tunics and eye-catching bearskin head-dress, proved very popular with the crowds.

In tune with the Canadian Centennial celebrations the display also featured a huge 300 square photographic mural of the Canadian Parliament Buildings, in front of which was a replica of a life-size horse and Royal Canadian Mounted Policeman, in colourful regulation uniform.

Mr. Wood informed us that all the currency was arranged through the courtesy of Canadian Imperial Bank of Commerce.

HALIBURTON SCHOOL OF FINE ARTS

YOU ARE URGED TO MAKE APPLICATION EARLY FOR THE FOLLOWING LANDSCAPE PAINTING AND PHOTOGRAPHY COURSE SO THAT IF NECESSARY ADDITIONAL INSTRUCTORS MAY BE HIRED ASSURING EVERY STUDENT OF THE BEST INSTRUCTION POSSIBLE.

HALIBURTON SCHOOL OF FINE ARTS - REGISTRATION FORM 1967

BOX 339, HALIBURTON

THE FIRST COURSES TO BE OFFERED BY THE SCHOOL WILL BE FROM SEPTEMBER 22 TO OCTOBER 1, DURING THE HEIGHT OF THE FALL COLOR.

OILS AND WATERCOLOUR COURSE

- | | | | |
|--------------|-----------------|----------------------|-------|
| a) Week-end | Sept. 22-24 | Mr. Joachim Gauthier | 15.00 |
| b) Week-end | Sept. 29-Oct. 1 | Mr. Gerald Zeldin | 15.00 |
| c) Week | Sept. 25-29 | Mr. Oscar Schlienger | 15.00 |
| Full Session | Sept. 22-Oct. 1 | | 50.00 |

PHOTOGRAPHY

- | | | | |
|-------------|-----------------|----------------|-------|
| a) Week-end | Sept. 22-24 | Mr. C. Landman | 15.00 |
| b) Week-end | Sept. 29-Oct. 1 | | 15.00 |

Please enclose a deposit of \$10.00
or if you wish the total fee due.

EVENING LECTURES — Free to Students of the School
— Open to Public

- Sept. 22 - Mr. Napier Simpson, Architect — Early Canadian Architecture.
- Sept. 23 - Mr. Douglas Sadler, Photographer — Macro photography.
- Sept. 24 - Mr. John Sommer, Gallery Owner — History of Canadian Art (Through arrangements with the Art Institute of Ontario.)
- Sept. 25 - Films on Canadian Art.
- Sept. 26 - Mrs. Philips, Antique Dealer — Canadian Antiques.
- Sept. 27 - History of Art.
- Sept. 28 - Films on Japanese Art.
- Sept. 29 - Lecture from Kodak.
- Sept. 30 - Mrs. Cliff Whetung — Canadian Indian Crafts.

TEEN-AGE SNACKS

What do teen-agers like to eat?
Dr. W.W. Bauer, consultant, Nat-
ional Dairy Council of the United
States, says many older people
often shake their heads over the
adolescent's diet, it was reported
in Health. However when left to
his own choice of foods, the adol-
escent is likely to choose ham-
burgers, often with cheese, milk
shakes, hot dogs, ice cream, pizza
and peanuts. These foods happen
to be very good sources of pro-
tein and should be included in
school lunch menus, too.

What is lacking in the diets are
fruits and vegetables. But Dr.
Bauer says, "We will never moti-
vate the young people to change
their diets by nagging them, or
by being critical — without even
a good reason — of their choice
of many useful foods."

Give the teen-agers good facts
about nutrition. Appeal to their
particular need which they can
understand. Offer them fruits and
vegetables in an attractive form
and let them make the choice. Dr.
Bauer says most choices will be
sensible.
